420 days

Shelf Life (Chilled at
40F): 40 days

Product of USA

Our beef patties and chubs are made of 100% American farm raised beef; with no additives or extenders ever! C&R Foods' raw ground beef is simple- pure ground beef.

However, we didn't stop there; we understand your mission is to feed the warrior athlete worldwide. We recognize that food safety is critical in keeping the warrior athlete mission-ready. We have incorporated a bit of technology, to our 100% pure ground beef to mitigate listeria, salmonella and E. coli. Our added technology reduces the chance of food-borne illness without affecting the taste, color, or texture of pure ground beef.

Now, your operation can provide true ground beef patties- cooked fresh for a delicious dining experience.
