

Our guacamole is made of rich, buttery Haas avocados and is high in Omega 3s and protein.

We "chunk" it up to give you flavor and texture for a true table-side guacamole experience.

Use our guacamole on toast for breakfast or try it as a salad topper or on a quesadilla. Naturally, it is a great dip and an exceptional condiment on the salad bar. Instead of mayo on a burger, use our guacamole.

But, we didn't stop there. We applied innovative technology to enhance food safety while preserving the very essence of what makes this guacamole so good.
